

Winners for Best Poster Presentation at JTBPS 2017

Poster number	Presenter	Title of presentation
P-01	Ying-Chieh Chao	Enhancement Device Performance and Stability of Organic Photovoltaics via Incorporating Multifunctional Additives
P-05	Saburo Kobayashi	Synthesis of Macrocyclic Block Copolymer Consisting of Poly(3-hexylthiophene)
P-09	Takamasa Iso	Anionic Polymerization of Styrene Derivative Containing N=CR ₂ Moiety
P-11	Kosuke Fujino	Aggregation States and Adhesion Properties of (Thermoplastic/Thermosetting) Polymer Interface
P-17	Eigo Ando	Controlled Photo-curing of Acrylates from Glycidyl-Containing Polymeric Dormant for Nano Hybrid Film Formation
P-19	Yuta Isawa	Ion Conductive Core-shell Nanoparticles via Site-selective Quaternization of Azole-azolium Salt Type Block Copolymers

Congratulations!
